About us

Appspotr Studios is an end to end mobile app development studio. We specialise in offering ready made solutions designed to solve real business problems.

We are a full service mobile application development studio that offers app related services starting from design, development, project management and maintenance.

Appspotr studio uses a range of low-code (appspotr) and pro code (Cyan) platforms to deliver value to its customers through mobile applications.

Appspotr Studios is part of Appspotr AB and serves as the in house development studio of Appspotr.

App management functions

Appspotr Studios utilised Appspotr 3 low-code mobile application development platform to develop mobile applications.

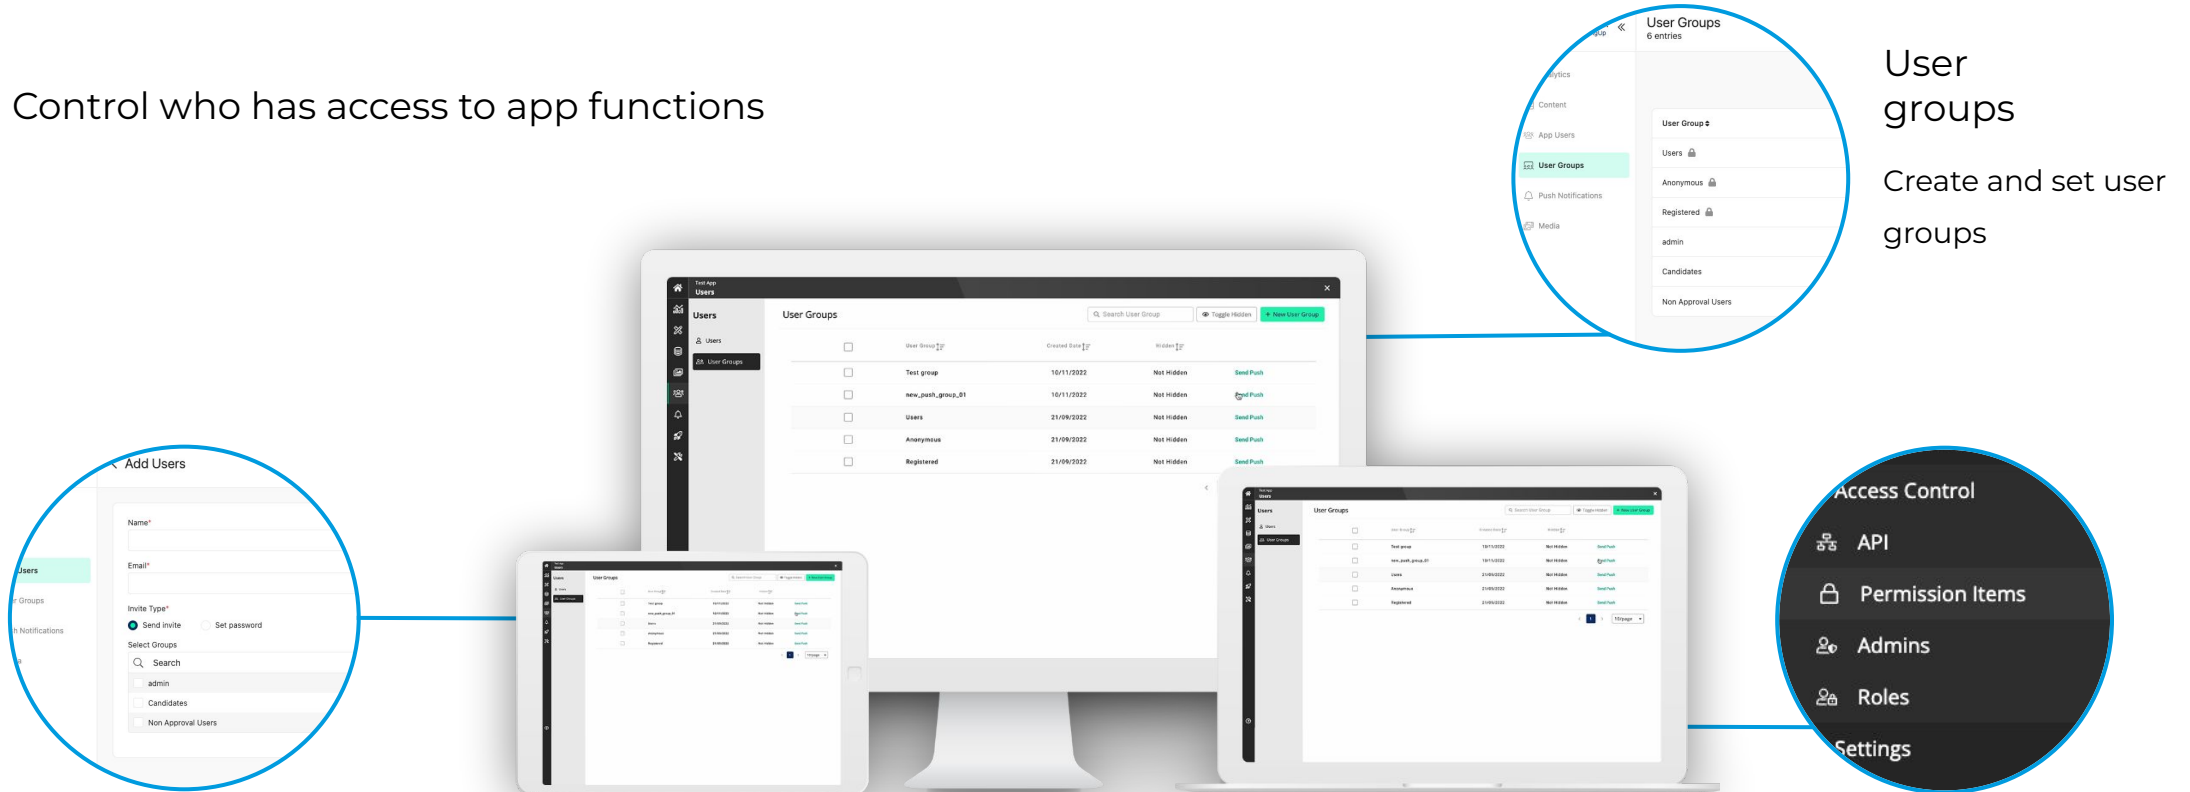

Appspotr 3 platform is an all in one platform with design, development, publishing, management and analytics built in.

Appspotr platform also contains a content management system and an iPad app where app admins can carry out a range of app management tasks. These include adding/changing content, user engagement, push notifications, managing app users and checking user analytics.

Manage access
